

MOHAMMED SOHAIL PATEL

Junior Flutter Developer | Mobile Architect | Full-Stack Engineer

40,000+ lines of production Dart code | Enterprise-grade mobile applications

 mohammedsohail.dev@outlook.com |  +91 95748 51640 |  GitHub

102 Paramount, Shaka Road Jogeshwari West, Mumbai 40010, India

EXECUTIVE SUMMARY

Senior Flutter Developer and Mobile Architect with proven expertise in designing and delivering production-grade enterprise applications. Demonstrated mastery in advanced state management (BLoC), high-performance UI rendering, local-first reactive architecture, and complex backend integration. Built two mission-critical applications totaling 40,000+ lines of clean Dart code with zero linting warnings. Proficient in Firebase/Firestore integration, performance optimization achieving 60 FPS, and enterprise-grade security implementations (GDPR compliance, data encryption). Seeking Senior Flutter Developer, Lead Mobile Engineer, or Flutter Architect roles on remote teams.

TECHNICAL EXPERTISE

Mobile & Flutter: Flutter 3.x, Dart 3.x, BLoC pattern, Provider, State management, Clean Architecture, Custom UI components, Material Design 3, 60 FPS optimization, Isolates for background processing

Backend & Integration: Firebase Firestore, Real-time Database, Cloud Functions, Hive NoSQL, REST APIs, WebSockets, JWT Authentication, OAuth

Data & Performance: Local-first reactive architecture, Multi-tier caching, Geohashing, Database optimization, RepaintBoundary, Stream processing, Atomic transactions

Security & Compliance: Firebase App Check, flutter_secure_storage, GDPR compliance, Data encryption, RBAC, Privacy protocols

Tools: Git/GitHub, Postman, Firebase Console,, VS Code, Android Studio, CI/CD, sensors_plus, device_calendar

PRODUCTION PROJECTS

FairService: Enterprise Command & Control Engine (v4.1.0) - In Development

Flutter (Dart) • Firebase Firestore • Real-time Analytics

Architected and developed a comprehensive command & control platform for elite service professionals. Currently in final development phase approaching MVP completion.

- - 20,000+ lines of clean, production-quality Dart code (0 lint warnings)
- - Engineered 12+ operational pages and 40+ custom reusable UI components
- - Developed Intelligence Report Engine with interactive analytics dashboard
- - Implemented Tactical Logistics system with real-time inventory tracking
- - Built Mission QA Gating system enforcing safety protocols
- - Zero-latency navigation architecture with custom transitions

Ibadah+: Production-Grade Spiritual Ecosystem - In Development

Flutter (Dart) • Firebase Firestore • Hive NoSQL • Local-First Architecture

Designed and architected a comprehensive spiritual platform. Currently in active development with full feature implementation across Phases.

- 21,400+ lines of clean Dart code across 200+ specialized files
- Achieving consistent 60 FPS UI performance through optimization
- Local-first reactive engine with Hive and Firestore synchronization
- 3-tier location caching system using Geohashing
- Sensor-fused Qibla compass with EMA smoothing
- GDPR-compliant data management system
- 0 linting warnings, full type safety compliance

PROFESSIONAL EXPERIENCE

Associate Software Engineer

Casepoint Pvt. Ltd. | Surat, India | Feb 2022 – Mar 2023

- Developed and optimized backend services using C# and .NET, improving system response time by 25%
- Designed PostgreSQL schemas for features serving 5,000+ concurrent users
- Built RESTful APIs with third-party integrations and robust error handling
- Participated in Agile methodology with code reviews and incident response reducing MTTR by 40%

EDUCATION

Master of Computer Applications (MCA) | 2018-2020

Specialized in Data Structures, Algorithms, Database Management, Software Architecture

Bachelor of Science in Information Technology (BSc IT) | 2015-2018

Foundation in programming, networking, and systems design

CERTIFICATIONS

- Flutter & Dart - The Complete Guide (Udemy, 30+ hours)
- Full-Stack Development: Django REST Framework & Flutter (Udemy, 100+ hours)
- Active in Flutter and Dart communities, contributing to open-source projects

ADDITIONAL

- Languages: English (Fluent), Hindi (Native), Gujarati (Native), Japanese(Beginner)
- Availability: Immediate | Open to remote work globally
